COMP 3311 Assignment 2

(Converting an ERD to a database schema)

Spring 2020

Due date: 13th Mar 2020

(11:59 am according to Canvas clock HK time)

Please check the time and date carefully !
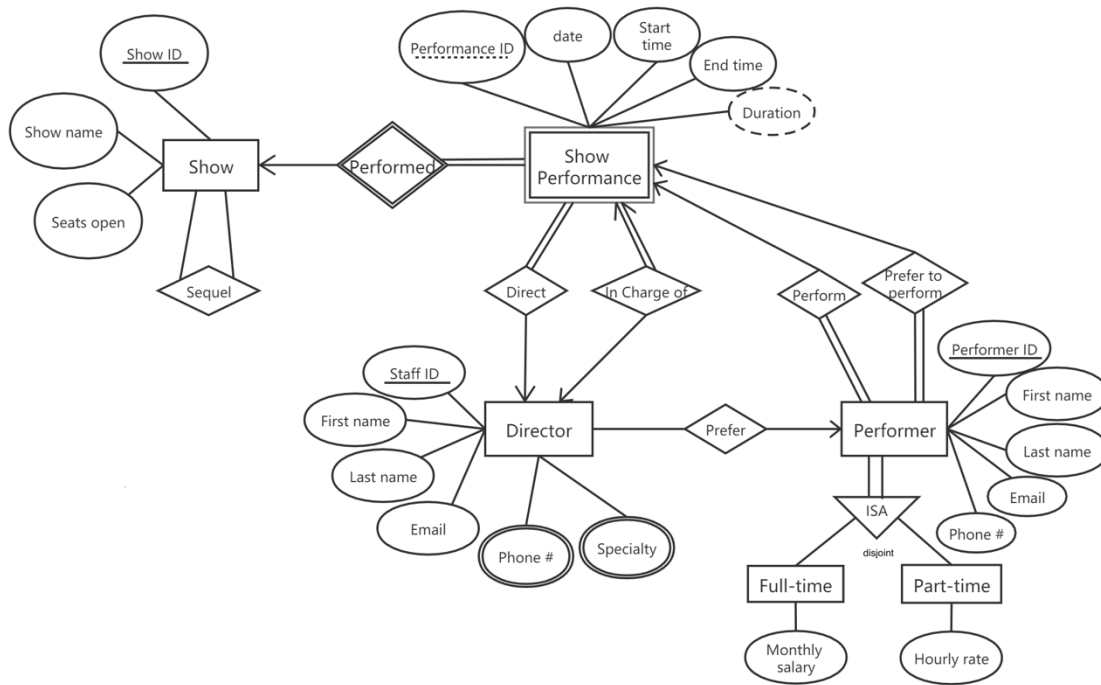

Assignment Rules:

1) This is an *individual* assignment. The assignment solution you submit must be solely your own work; copying or letting others to copy are both considered cheating.

2) **No late submission will be accepted !**

Assignment description

By referring to the given ER Diagram, convert the ER Diagram into corresponding database schemas (i.e. the relational schemas).

Identify all the primary keys(**<u>underline them</u>**) and foreign keys (**<u>doubly underline them)</u>** of the relational schemas.

Submission:

- You need to submit a clear **.pdf** version (in at most 2 A4 pages) assignment to Canvas. Please check out detailed instructions in the following link:
